

Kingswells Care Home

Kingswells Care Home is a 60-bed facility across 2 floors with 6 wings for older people. It is a specialist dementia unit with trained staff including nurses.

Our mission is to help those with dementia live their best life and we have a series of activities to help residents adapt to enjoying their interests in a new compassionate way that takes account of any additional needs.

Our home is adapted to the needs of people with dementia and we have a clinical presence in attendance.
